Overview

The following information is compiled in terms of the requirements of the Central Bank of the U.A.E. Banks are obliged to report certain qualitative and quantitative information with regards to their risk profile and capital adequacy on a regular basis to the public, which incorporates the revised Basel III Pillar 3 requirements on market discipline.

Reporting framework

The information disclosed in this report is based on the definitions, calculation methodologies and measurements as defined by the Amended Regulations. All tables, diagrams, quantitative information and commentary in this risk and capital management report are unaudited unless otherwise noted.

References to fixed format templates as required under the revised Pillar 3 disclosure requirements are made throughout this document and highlighted in the relevant sections.

Period of reporting

This report is in respect of the quarter ended 30 June 2022, including comparative information (where applicable).

Activities

National Bank of Oman SAOG (the "Bank" or the "Head Office") was established in the Sultanate of Oman in 1973 as a joint stock company and is engaged in retail banking, wholesale banking and investment banking services. The Bank in the United Arab Emirates ("UAE") operates with two branches i.e. Abu Dhabi and Dubai (the "Branches") under a commercial bank licence granted by the UAE Central Bank. The registered office of the Branches is P.O. Box 3822, Abu Dhabi, UAE. Abu Dhabi Branch started its operation in 1976. Dubai Branch started its operation in December 2013.

The principal activities of the Branches are granting of loans, advances and the provision of other commercial banking services.

These financial statements reflect the activities of the Dubai and Abu Dhabi Branches only and exclude all transactions, assets and liabilities of the Head Office and other branches of the Head Office outside United Arab Emirates.

Overview of Risk Management & RWAs Capital Adequacy (KM1)

The ultimate objectives of capital management are three fold:

- Ensure stability of the bank by holding enough capital to cover unexpected loss
- Enhance the efficiency of the bank, by increasing the risk adjusted return at various levels of aggregation (and thereby ensuring that "excess" capital is not held unnecessarily)
- Incentivize informed decision making and proactive risk management through an efficient and business.

The capital management plan envisaged for the bank is based on the regulatory risk capital framework of Basel II and using standardised approach for calculating the credit as well market risk and the basic indicator approach for operational risk as prescribed by CBUAE.

The capital management policy of the bank aims to ensure that on a risk adjusted return on capital basis (RAROC), individual lines of business are allocated an appropriate amount of capital. The RAROC model has been implemented for the entire portfolio except for Retail banking where the Central Bank of Oman has defined caps on interest rates, which are followed.

The Asset Liability Committee (ALCO) reviews and monitors capital adequacy and requirement for capital on an ongoing basis. Capital adequacy calculation is prepared and submitted for ALCO's review every quarter. Various stress scenarios, taking into account the earning volatility, credit and market risk impact along with capital allocation by line of business is reviewed in this forum.

A set of triggers are followed as part of the capital management so as to provide the bank with an early warning system in terms of its level of capital, to enable it to take suitable measures at an early stage to prevent capital falling below acceptable limits.

The Bank prepares ICAAP (Internal Capital Adequacy Assessment Process) document in line with Basel II guidelines to evaluate all Enterprise-wide Risks that are not fully captured in the Pillar I Risks. This document addresses through objective and subjective evaluation, the adequacy of capital after considering the impact of additional risks, such as, Residual Credit Risk, Residual Credit Risk Mitigation (CRM) Risk, Residual Credit Risk - Equity, Residual Market Risk - Currency, Credit Concentration Risk, Interest Rate Risk in Banking Book, Settlement Risk, Reputation Risk, Strategic Risk and Compliance Risk as well as various levels of stress tests. The assessment under ICAAP is carried out and submitted to the Central Bank of UAE in accordance with the prescribed guidelines. The bank will also factor in the regulatory guidelines, wherever applicable on Basel III, while carrying out its assessment.

The Central Bank of UAE ('CBUAE') supervises the Branches on a consolidated basis, and therefore receives information on the capital adequacy of, and sets capital requirements for, the Branches as a whole. Effective from 2017, the capital is computed at the Branches level using the Basel III framework of the Basel Committee on Banking Supervision ('Basel Committee'), after applying the amendments advised by the CBUAE, within national discretion. The Basel III framework, like Basel II, is structured around three 'pillars': minimum capital requirements, supervisory review process and market discipline.

The Branches' regulatory capital is analyzed into two tiers:

CET1 capital is the highest quality form of capital, comprising share capital, legal, statutory and other reserves, fair value reserve, retained earnings, after deductions for intangibles and other regulatory adjustments relating to items that are included in equity but are treated differently for capital adequacy purposes under 'CBUAE' guidelines.

Tier 2 capital comprises of collective provision which shall not exceed 1.25% of total credit risk weighted assets.

The CBUAE issued Basel III capital regulations, which came into effect from 1 February 2017 introducing minimum capital requirements at three levels, namely Common Equity Tier 1 ('CET1'), Additional Tier 1 ('AT1') and Total Capital. The minimum capital adequacy requirements as set out by the Central Bank are as follows:

Minimum common equity tier 1 (CET 1) ratio of 7% of risk weighted assets (RWAs). Minimum tier 1 ratio of 8.5% of RWAs.

Total capital adequacy ratio of 10.5% of RWAs.

Capital conservation buffer - 2.5% of RWAs.

Capital adequacy and the use of regulatory capital are monitored on a regular basis by the Branches' management, employing techniques based on the guidelines developed by the Basel Committee and the Central Bank of United Arab Emirates. The required information is filed with the regulators on a quarterly basis.

The UAE Central Bank issued Basel III capital regulation vide its notice no. CBUAE/BSD/N/2020/66 dated January 07, 2020 which was partially effective as at December 31, 2019 (as per the regulation, only Pillar II is applicable in December 2019 and the rest will be applicable from June 2020.

During the years ended 31 December 2021 and 2020, the Branches have complied in full with all its externally imposed capital requirements.

Liquidity

Eligible Liquid Assets Ratio (ELAR)

The following table presents the breakdown of the Bank's available high-quality liquid assets (HQLA), as measured and defined according to the CBUAE Liquidity Regulations.

			Jun 22 AED' 000
1	High Quality Liquid Assets	Nominal amount	Eligible Liquid Asset
1.1	Physical cash in hand at the bank + balances with the CBUAE	285,986	
1.2	UAE Federal Government Bonds and Sukuks		
	Sub Total (1.1 to 1.2)	285,986	285,986
1.3	UAE local governments publicly traded debt securities		
1.4	UAE Public sector publicly traded debt securities		
	Sub total (1.3 to 1.4)	0	0
1.5	Foreign Sovereign debt instruments or instruments issued by their respective central banks		0
1.6	Total	285,986	285,986
2	Total liabilities		934,922
3	Eligible Liquid Assets Ratio (ELAR)		0.31

Advances to Stables Resource Ratio (ASRR)

The following table presents the breakdown of the Bank's Advances to Stable Resources Ratio (ASRR), as per the CBUAE Liquidity Regulations

		Items	Jun 22
1		Computation of Advances	AED' 000
	1.1	Net Lending (gross loans - specific and collective provisions + interest in suspense)	471,540
	1.2	Lending to non-banking financial institutions	16,072
	1.3	Net Financial Guarantees & Stand-by LC (issued - received)	9,973
	1.4	Interbank Placements	
	1.5	Total Advances	497,585
2		Calculation of Net Stable Ressources	
	2.1	Total capital + general provisions	267,501
		Deduct:	
	2.1.1	Goodwill and other intangible assets	
	2.1.2	Fixed Assets	12,004
	2.1.3	Funds allocated to branches abroad	
	2.1.5	Unquoted Investments	
	2.1.6	Investment in subsidiaries, associates and affiliates	
	2.1.7	Total deduction	12,004
	2.2	Net Free Capital Funds	255,497
	2.3	Other stable resources:	
	2.3.1	Funds from the head office	
	2.3.2	Interbank deposits with remaining life of more than 6 months	
	2.3.3	Refinancing of Housing Loans	
	2.3.4	Borrowing from non-Banking Financial Institutions	102,388
	2.3.5	Customer Deposits	603,608
	2.3.6	Capital market funding/ term borrowings maturing after 6 months from reporting date	
	2.3.7	Total other stable resources	705,996
	2.4	Total Stable Resources (2.2+2.3.7)	961,493
3		Advances TO STABLE RESOURCES RATIO (1.6/ 2.4*100)	51.75

Standardized Approach - Credit Risk Exposures & CRM Impact (CR4)

The Branches has in place group standards, regulations of the U.A.E. Central Bank and policies and procedures dedicated to monitor and manage risk from such activities.

The Bank on an overall basis has adopted ICAAP as a strategic management tool in evaluating all its material risks inherent in its business portfolio and ensuring that appropriate capital buffers and risk mitigating actions are established for the management of these risks.
